**Section 1 (Step 1):**

1) This Pop-up windows reported before are still popped out: **a.** when change the PW on Backend “Edit Password” page, and **b.** When registered users logged in (**on logged in page**) and change Password on the site. (see below 2 SSs)

**a.**

**b.**

2) **Numbers of reviews** and the **Star level** are missing after clicked to see the review details on product page:

### Reviews of Customer

Services is good

Received very good services

A good one

- 3) The “Promotion code” selection box on Promotional Code page is STILL not allowing to type in/create the Promo code

a.

PRODUCTS MGMT. CUSTOMER MGMT. CONTENT MGMT. ORDER MGMT. RMA MGMT. SHIPPING MGMT. BANNER MANAGER

## Promotional code: New

\* Discount case : Percentage  \* Status:  Yes  No

b. Currently the Discount case only support % calculation although there are 2 options in the box, and even if you selected “Total Amount” as the calculation it still calculates with %, instead of the Amount of money (see below **SS1** Disc case is selected to Total Amount, but on the real Shopping cart **SS2**, it still goes with % )

- 4) Regarding current **security/Registration hacking issue** reported before, please add an Email verification to the customer/user Registration process, which means to keep the current Captcha and add the email verification – the system allows a registration entry only when it received a verification from the email they sign up with. Let me know if you have any question.

## Section 2 (Step 2):

- 5) **Guest Checkout is not working** (after clicked PROCEED button on Guest Shopping box, we got an empty page – see below left SS).

- 6) On Paypal page, the "Handling" title is miss-named as reported below, which should be named to "Shipping/Handling", and the line order of Tax and Shipping/Handling is reversed actually (Tax line should be after/below the Shipping line).

- 9) “Shipping same as billing address” on Paypal page should be “Shipping Address same to Billing Address” as indicated before (see below **SS1**)

Please change the color to **Orange** and make **Bigger** font to the line of “Click here, if shipping address is different....” on first check-in page (see below **SS2**) – since it is important for the buyer to moving forward.

- 10) After filled in all Credit card and Billing info, and clicked “Pay Now” button on PayPal page, Paypal does NOT accept the payment and it just goes back to the original Paypal page before we filled in all the Payment info (see below SS) without any note or explanation. That means the Shopping cart didn’t go through with Paypal after all and there is some kind of new bug caused by last fixing works (it works on 1-20). We tried 4 times....
